America's Favorite Doors®

From authentic woodgrain details to energy efficient, strong construction, Clopay® Arbor Grove™, Rustic and Craftsman Collections, and smooth fiberglass and steel entry door systems are a beautiful choice for every home. Our systems feature state-of-the-art components to give you peace of mind when it comes to security, durability and energy efficiency.

## HOW TO CHOOSE YOUR ENTRY DOOR

### 1 CONSIDER YOUR ENTRYWAY

Does your opening require a single door, or a door with one or two sidelites? Is there room for a transom? Clopay offers any combination, complete with your choice of finish and hardware.

### 2 CHOOSE YOUR DOOR STYLE

Clopay offers a wide array of doors, sidelites and transoms to complement the architecture of your home. For the authentic look of wood, select from our Arbor Grove™, Rustic or Craftsman Collection fiberglass doors with woodgrain details in Cherry, Mahogany, Oak or Fir. If you prefer a painted look, smooth fiberglass and high-definition steel doors are a more economical, yet equally durable choice.

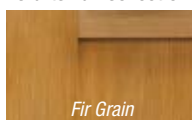

#### Arbor Grove™ Collection

#### Rustic Collection

#### Craftsman Collection

#### Smooth Fiberglass

#### High-Definition Steel

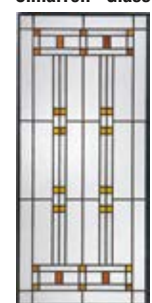

### 3 CHOOSE YOUR GLASS

Enhance the beauty of your entry door with our beautiful glass designs. Select from a wide variety of obscurity levels, glass sizes, coming colors and matching sidelites and transoms. Complementing garage door windows are also available.

#### Addison™ Glass

#### Cimarron™ Glass

#### Tuscany™ Glass

See pages 20–50 for all of our glass offerings.

### 4 CHOOSE YOUR FINISH

Clopay's Finishing Touch Stain and Paint System offers 8 stain and 18 paint colors to create a custom look for your entry door. Paint choices include Clopay garage door colors for a complementing entry and garage.

#### Finishing Touch Stain

#### Paint

or

### 5 CHOOSE YOUR HARDWARE

Locksets and accessories are available in Patina, Satin Nickel, or Bright Brass to complement coming, hinge and sill finishes.

Design the perfect entry door for your home with our Door Imagination System!  
Explore all of your options at [ClopayDoor.com](http://ClopayDoor.com)

# smarter by design

More than just a beautiful entry door, Clopay features a proven system of premium door panels coupled with superior components and assembled under the highest quality standards. Durable and reliable, Clopay entry door systems offer years of performance, energy efficiency and dependability.

## COMPONENTS OF A CLOPAY® ENTRY DOOR

*Grained fiberglass example shown. Smooth fiberglass and steel door differences noted.*

### PREMIUM FIBERGLASS DOORS

- Cherry, Mahogany, Oak and Fir grain patterns
- Elegant panel designs
- Won't dent, rot, crack or rust
- Low maintenance
- Available with the Finishing Touch, a durable, long-lasting finish

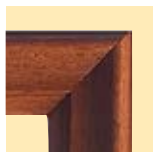

*See pages 14–15.*

### INSULATED DOOR LITES

- Tempered, triple glazed decorative glass<sup>1</sup> helps keep your home warmer in winter, cooler in summer

### DURABLE LITE FRAMES

- Resist moisture and seals glass tight to the door
- Won't expand or contract, warp, sag, shift or twist during extreme temperature changes

*Arbor Grove™, Rustic and Craftsman Collections natural woodgrain frames (stain/paint grade)*

*Smooth fiberglass and steel door white textured frames (paint grade)*

### COMPOSITE TOP AND BOTTOM RAIL

- 1" top rail; 1-1/2" bottom rail<sup>2</sup>
- Rot resistant; helps eliminate water infiltration

*Internal View*

### POLYURETHANE FOAM CORE

- Proven effective insulation
- Energy efficient and durable

### 4-1/4" HINGE AND LOCK STILES

- 3-1/2" LSL (laminated strand lumber) plus 3/4" trimable hardwood hinge and lock stile run entire length of the door on each side for added strength and stability<sup>3</sup>
- Rigid, resists bowing
- True square edge, just like a real wood door

<sup>1</sup> Clarion™ collections feature double glazed insulated glass.

<sup>2</sup> Smooth fiberglass and steel doors have a 1" composite bottom rail and wood top rail.

<sup>3</sup> Smooth fiberglass and steel doors have a 12" lock block.

*Most Clopay entry door systems are Energy Star certified. See your Clopay Dealer for full details.*

## SILL AND HINGE COMPONENTS

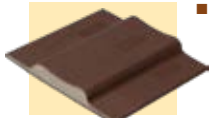

Grained fiberglass example shown.

### WEATHERSTRIP

- Flexible
- Helps seal tight
- Easily replaced

### CORNER SEAL PAD

U.S. Patents Pending

- Uniquely designed to block air, water and light at the bottom corners of the door

### COMPOSITE ADJUSTABLE SILL

- Adjustable threshold with sealed adjusting mechanisms for performance over time and an optimal seal against four-finger sweep
- High dam, narrow cap design provides barrier against air and water infiltration
- All composite construction—maintenance free, withstands deterioration over time

U.S. Patents: 6,789,358; 7,350,336; 8,522,483; D638,958 and U.S. Patents Pending

Aluminum Approach Composite Substrate Adjustable Threshold

### BALL BEARING HINGES

- Three ball bearing hinges help prevent wear and sag
- Available Brass, Patina and Satin Nickel finishes complement sill and glass coming

### FOUR-FINGER SWEEP

- Helps to eliminate air and water infiltration

### HINGE AND SILL FINISHES

Patina

Satin Nickel

Brass

## JAMB MATERIALS

Standard jamb materials shown. Additional options are available. See your Clopay Dealer for options and additional information.

### GRAINED COMPOSITE JAMBS, MULL POSTS AND BRICKMOULD

Composite Mull Posts

Composite Brickmould

- Composite material will not absorb or wick moisture
- Helps prevent warping, rotting and splitting
- Standard on all grained fiberglass entry door systems
- Can be finished to match door stain or paint color

### SMOOTH COMPOSITE JAMBS, MULL POSTS AND BRICKMOULD

- Composite material will not absorb or wick moisture
- Helps prevent warping, rotting and splitting
- Standard on all smooth fiberglass entry door systems
- Can be finished to match door paint color

### FINGER-JOINTED DURA-FRAME™ JAMBS, MULL POSTS AND BRICKMOULD

- Durable Alaskan Yellow Cypress is finger-jointed to the bottom of a pine jamb at its most vulnerable point, making it naturally resistant to rot to extend the longevity of the frame
- Standard on all steel entry door systems
- Can be finished to match door paint color

## FIBERGLASS ENTRY DOORS

# ARBOR GROVE™ collection

FIBERGLASS

LIMITED  
**LIFE**  
WARRANTY

The technology behind our grained fiberglass entry doors is a patented process that authentically replicates the look and feel of real wood grains. With random grain depths and all the natural characteristics of wood, you won't be able to tell the difference.

See individual glass pages for complete door, sidelite and transom designs.

### CHERRY GRAIN DETAIL

*Can be stained or painted*

This premium hardwood is native to North America and a favorite among today's homeowners for its attractive grain. Our Cherry fiberglass entry doors accurately reproduce the details of the woodgrain from its natural luster to its rich, warm glow.

Complementing Tuscan, Country, English Manor and Cottage architecture, Clopay's Rustic Collection entry doors give you the look and feel of solid wood. The rich cherry

graining, authentic proportions and distinctive details reflect quality craftsmanship. Rustic door systems are designed and engineered for lasting durability and energy efficiency with all the benefits of fiberglass.

*See individual glass pages for complete door, sidelite and transom designs.*

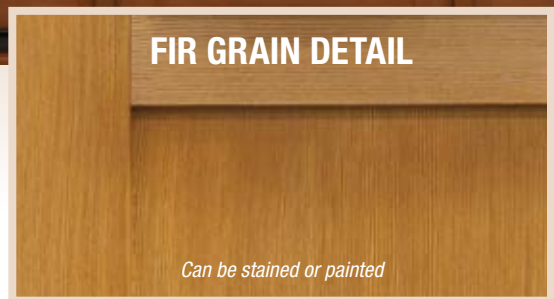

### RUSTIC COLLECTION HARDWARE

*Add more rustic charm with decorative hardware. See pages 52–53 for more options and information.*

## FIBERGLASS ENTRY DOORS

# CRAFTSMAN collection

Reflecting the elegance and simplicity of the Arts and Crafts Movement, Clopay's Craftsman Collection is the consummate entry for Mission, Bungalow and Transitional-style homes.

Featuring a clean, simple design coupled with deep Fir graining, Craftsman Collection fiberglass entry doors will greet you and your visitors with a warm welcome.

*See individual glass pages for complete door, sidelite and transom designs.*

Exquisitely handsome in its simplicity and prized for its tight vertical grain pattern, Fir exhibits a rich visual quality that further accentuates the style made popular by the artisans of the Arts and Crafts movement.

## FIR GRAIN SOLID DOOR DESIGN

fiberglass

## FIBERGLASS

LIMITED  
LIFE  
WARRANTY

Smooth fiberglass doors offer a clean look with high-quality construction and polyurethane insulation for added strength and energy efficiency. Composite bottom rails are rot and corrosion resistant and a 12" solid wood lock block provides additional stability for locksets.

A smooth surface, distinctive stile and rail lines and highly defined panel embossments are the hallmarks of smooth fiberglass doors. Unlike wood or steel doors, they won't crack, split, dent or rust. Smooth fiberglass doors are engineered to last a lifetime and offer all of the performance and energy efficient benefits of fiberglass.

20 minute fire-rated doors are available. Additional charges apply. See your Clopay Dealer for availability.

## THE FINISHING TOUCH

Clopay® entry doors feature the Finishing Touch Stain and Paint System, a custom two-part finish that is durable and long-lasting.

Clopay's Finishing Touch system is warranted for five years\*. Our strong, durable finish will help defend against extreme weather and direct sun without chipping, peeling or cracking, leaving your entry door beautiful for years.

Clopay is the only garage door manufacturer to offer complementing entry doors, providing homeowners with coordinated products for a cohesive design statement to enhance any home's style.

It's important to note that a complementing color is different than a true color match.

With complementing designs, the products may have completely different substrates and finishing processes (like a steel garage door with a fiberglass entry door). The panels, the glass styles and the finish colors will be similar and complementary, but not exactly the same. They are designed to work together beautifully on the home façade, to elevate the overall impact of any home's curb appeal.

We always recommend requesting a product sample from your Clopay dealer to compare for yourself.

complement  
your

curb  
appeal

*\*Finishing Touch system requires top coat maintenance for stained doors within the five year period.*

## DESIGNER GLASS

# DESIGNER GLASS

## collections

### ARTFULLY CRAFTED DESIGNER GLASS

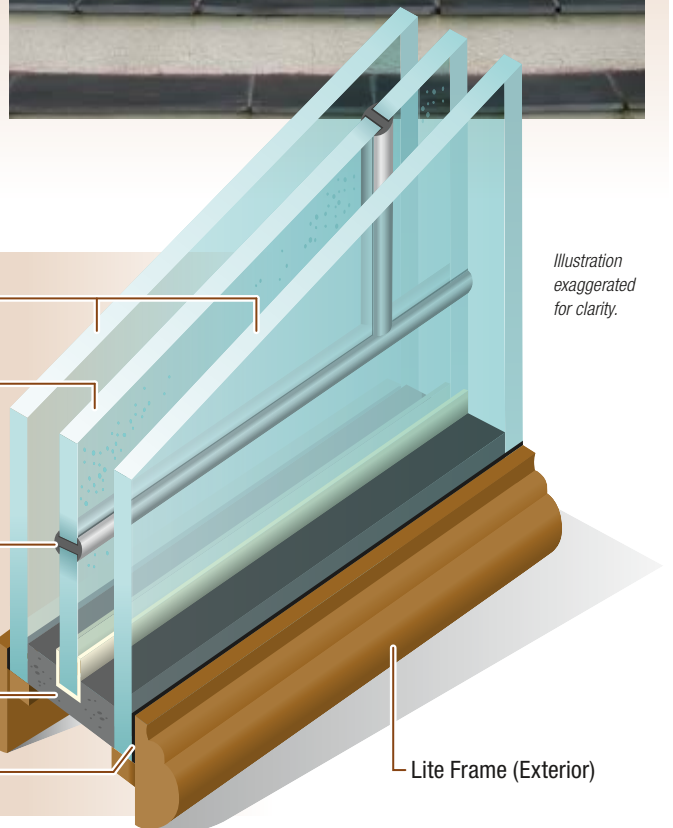

Clopay® designer glass is created using an array of fascinating art glass pieces set with patina, satin nickel or brass coming to create stunning patterns and beautiful style.

Handcrafted designer glass brings light and a distinctive look to your home. Each piece is unique with intentional aesthetic “imperfections” and variations that reflect the authentic process and add to the character of the finished product.

Clopay offers a wide variety of designs, sizes, coming and matching sidelite and transom options to complement every architectural style. Choose your favorite and find the door styles they create on the following pages.

### PRIVACY CONCERNS

Many Clopay decorative glass designs, while letting light in, offer privacy as well. See our Privacy Rating for each glass design indicating its level of obscurity. Glass close-ups and obscurity details are shown with each glass collection on pages 20–51.

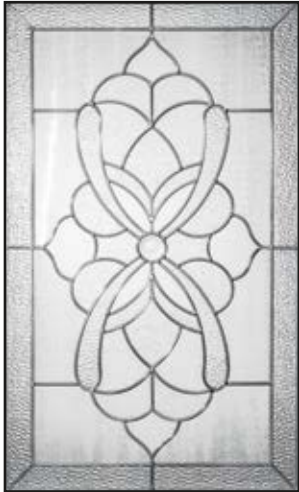

### TRIPLE GLAZED DESIGNER GLASS

Clopay's insulated designer glass is more energy efficient, more secure, easier to clean, and less prone to accidental breakage. Glass designs are permanently sealed between of two sheets of clear tempered glass.

# KINSLEIGH™ glass

Clear Bevel Glass

Glue Chip Glass

## SIMPLY TASTEFUL

Kinsleigh™ glass features a simple, refined design that stresses serenity and clarity. The clear beveled blossom focal point is set in glue chip glass and framed within clear bevels. This clean, subdued design makes a beautiful addition to any style home and is particularly well-suited for smaller, understated homes.

# TREVIAN™ glass

Reed Glass Granite Glass Clear Bevels Glue Chip Glass

## CAMING OPTION

Patina

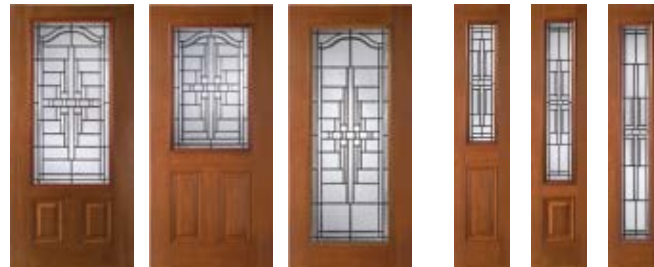

## CONTEMPORARY CHIC

Urban style emerges from a central point with clear bevels accented by granite and glue chip glass for a design that echoes the city's tempo outside your door.

Although a perfect choice for modern homes, Trevian glass also complements Mission styles, lending contemporary flair to Bungalow and Transitional homes.

# CIMARRON™ glass

Clear Water Glass  
Niagara Glass  
Clear Bevels  
Hammered Glass  
Amber Glass

## CAMING OPTION

Patina

## ARTS AND CRAFTS

The placement of amber glass accents in Cimarron™ glass emits fascinating light reflections. Complements Craftsman, Bungalow, Mission and Pueblo home styles and adds just a hint of color for Contemporary styling.

# CLARION™ glass

Double Glazed  
Clear Low-E  
Glass

Permanently  
Applied Grilles

Doors with simulated divided lites are manufactured with additional grilles between the glass, filling the void between glass lites and furthering the illusion of individual panes of cut glass.

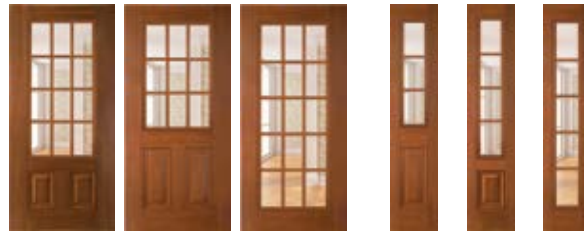

## SIMULATED DIVIDED LITES

Simulated Divided Light Grilles are permanently applied to the interior and exterior of the glass, combining the traditional look of individual panes of glass with energy efficiency.

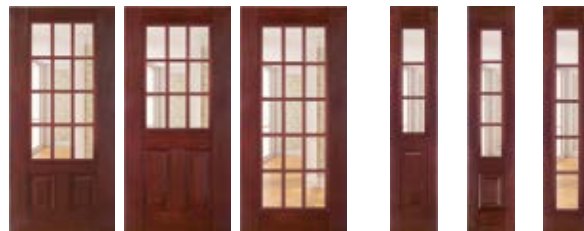

## ARBOR GROVE™ Fiberglass Collection

**Available only for Craftsman Collection doors with any glass option; not available on solid doors**

- Available finished or unfinished
- Factory installed

*Dentil shelf available only on inswing doors. Not available on outswing doors.*

### ADDITIONAL OPTIONS

Additional installation options, such as storm door preparation, brickmould or interior casings are available.

Contact customer service at 1-800-2CLOPAY (225-6729) or see your Clopay Dealer for more information.

## ROUGH OPENING CHART

Dimensions listed at right are for the most common 6'8" door configurations with rough opening dimensions. For additional options and heights, see notes below.

## OUTSWING UNITS

For units with bumper-style sill, subtract 1" from prehung and rough opening for height. For brick-to-brick size, add 1/2" to all configurations.

## THRESHOLD

On inswing units the threshold height is 1-3/8", which allows for approximately 1" opening clearance. If a spacer is needed under the sill to allow for added clearance, adjust the rough opening requirement accordingly.

## ADA ACCESSIBLE SILLS

For units with ADA sills, subtract 7/8" from the prehung size. ADA sills can be used only on boxed units. ADA sills available in Mill finish only.

## 7' & 8' TALL DOOR SYSTEMS

Add 4-7/8" to all heights for 7' doors and 16" for 8' doors. See your Clopay Entry Door Dealer for availability.

## 16" SIDELITES

Add 2" per sidelite for 16" sidelites.

## CUSTOM SIZES

For custom door heights, call customer service with requirements. Additional charges and longer lead times apply.

## ROUGH OPENING CHART

Dimensions below are for 6'8" high doors. See notes at left for 7' and 8' high doors and additional options.

SINGLE DOOR/SINGLE SIDELITE				
Nominal Door Slab Width	Nominal Sidelite Slab Width	Actual Prehung Unit Size	Nominal Rough Opening Size	Nominal Brick-to-Brick Measurement

## DETERMINING THE ROUGH OPENING

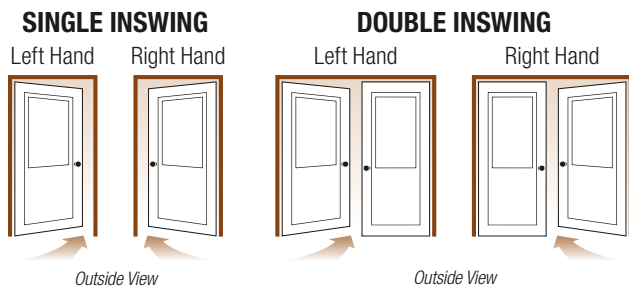

### To Determine the Rough Opening

1. Between the studs, measure width at top, center and bottom of opening. Record the smallest measurement.
2. From floor up to the bottom of the header, measure height at both sides of the opening. Record the smallest measurement.

## DOOR SWING & HANDING CHART

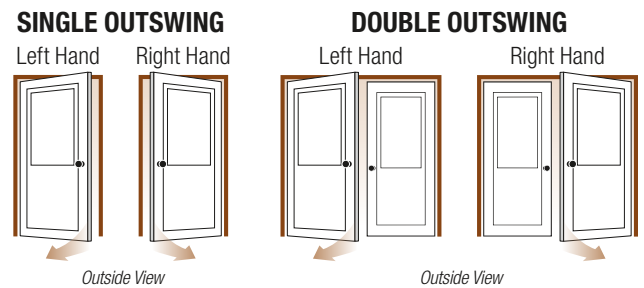

### Inswing Units

Door swings open to the inside of home

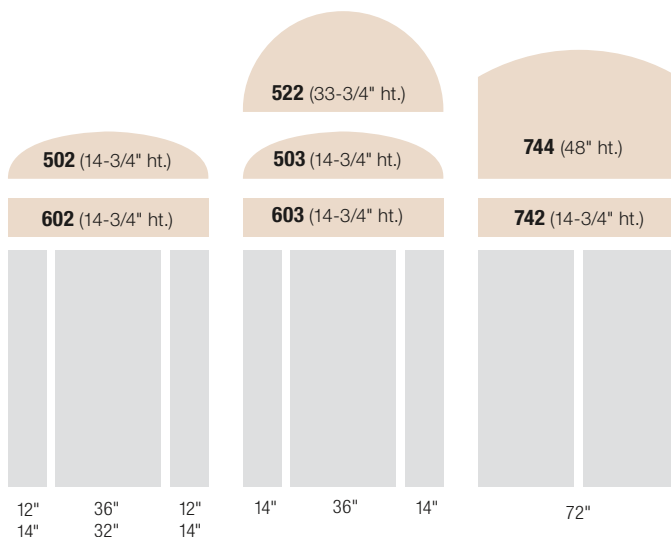

### Outswing Units

Door swings open to the outside of home

## TRANSOMS

Add transom height to door dimension listed (prehung, rough opening, brick-to-brick).

Transoms are not available for 30" doors.

Continuous head & sill construction must be used when ordering a transom.

Custom-sized *clear glass* transoms may be ordered.
